TECHNICAL SKILLS

• Core Subjects & Languages: Java, C++, PHP, JavaScript • Web Development: Full Stack Development, HTML, CSS, Bootstrap • Databases: MySQL • Tools & Platforms: Basic JS

PROFESSIONAL EXPERIENCE

Samagra IT Solution | Web Developer (PHP) | Varanasi February 2024 – May 2024 • Designed responsive e-commerce website using PHP and MySQL.

PROJECTS

Purposeful Scroll • Developed an engaging educational platform to raise awareness for international observances by categorizing 10 popular and 10 least popular global days. • Built an anti-scrolling gamified feature that encourages users to step away from short-form videos and complete physical activities. • Engineered a dynamic reward system where users earn virtual coins for physical tasks, featuring a secure withdrawal mechanism that unlocks upon reaching a specific threshold.

Her Healers • Created a donation website for poor women's education, healthcare, and awareness, promoting social responsibility and raising \$10,000.

Coffee Moment | Onsite • Designed a tourist website for BHU, Varanasi, enhancing user experience and local tourism by 25%.

Closet Collection • Developed an e-commerce platform to help users create attractive closets by purchasing clothes online, increasing sales by 15%.
